Summary

Frontend Developer with hands-on experience building responsive, production-quality web applications using React, Next.js, and Tailwind CSS. Skilled in state management, API integration, and authentication systems, with a growing focus on full-stack development. Delivered multiple e-commerce and admin dashboard projects with an emphasis on performance and clean architecture.

Skills

Frontend: React, Nextjs, Javascript, Tailwind CSS, Bootstrap, Responsive Design

Data & State: TanStack Query, Axios, REST API Integration

Backend (Learning): Node.js, Express.js, MongoDB

Tools: Git, GitHub, Vercel, Render, Figma

Projects

TechMart — Electronics E-commerce Platform, 05/2026 – 08/2026

React, Next.js, Node.js, Express, MongoDB, TanStack Query

- Full-stack e-commerce platform with authentication, cart, wishlist, order management, and an admin dashboard.
- Implemented centralized API handling with TanStack Query and Axios interceptors for automatic token refresh and error handling.
- **Live Demo** [🔗](#) | **Github** [🔗](#)

Slate — Corporate Website, *React, React Router, Tailwind CSS* 06/2026 – 06/2026

- Led a team to build a multi-section corporate website in 3 days, managing merge reviews, conflict resolution, and design consistency across contributors.
- Identified and fixed bugs and design inconsistencies under a tight deadline, overseeing GitHub workflow — branching, code review, and merge approval — to maintain quality.
- **Live Demo** [🔗](#) | **Github** [🔗](#)
